About Me

To obtain a position that will allow me to utilize my technical skills and willingness to learn in making an organization successful.

Experience

Dev Information Technology Ltd, A'bd Feb-2020 To May-2022

AttomData - PHP

- This project was mainly based on scraping data from websites.
- My role was to refer assigned websites by clients and fetch same page in response using PHP crawling and convert that page response into well-mannered data format and stores data into excel spreadsheet and database.

Dev Information Technology Ltd, A'bd Feb-2020 To May-2022

Event Management System - Angular

- To manage events Where an organizer can create new events.
- If participants wants to purchase tickets of any event then needs to register and has to complete the KYC details.

Squad Technologies Pvt Ltd, A'bd May-2022 To Nov-2022

Mountstride Manager - PHP

- This project was about master admin panel where Admin can manage and create dynamic form as many as admin wants and admin can add fields as per their needs
- And admin can import data from excel and add into database and show that data at frond-end side and same data can be exported using php excel library

Travel Designer India Pvt Ltd, A'bd Jan-2023 To Present

RezLive.com - PHP (Zend Framework)

- This project was mainly based on hotel booking over all worldwide Where agent can register their own account and book hotel.
- There were transfer and hotel sight seeing functionality apart from Hotel Booking and I Worked on several bug fixing and new created modules as well to give client best experience.
