Problem-solving

Teamwork

### PROJECTS

#### Support Time

I have worked in support team for 10 shopify apps in Metizsoft Solutions Pvt LTD and have given satisfactory solutions to all the client's queries.

#### Disputifire

Disputifire - This is a application used for solving disputes/ problems generated while transaction of payment through customer side, merchant side or bank side in shopify.

I have made regular updates in this application acoording to the client's requirements

## Hotel Management

Hotel Management - This is a web application used for managing services of multiple hotel at the same time and from the same platform.

There are 6 main panels in this project which provides support to multiple services as follows-

Super Admin, Admin , Front Office, Housekeeping, Food and Beverage, Room Service.

This project was made with NON AJAX functionality and we had to convert it into AJAX Functionality while adding New theme to it.
