## PROJECTS

### Text Utilizer - D'jango

01/2024 - 02/2024 Ahmedabad

In the internship at PaperBird Tech., I had created a mini project named "Text Utilizer" with Python D'Jango framework.

- Text Utilizer can do some necessary changes in the text provided by the user like to remove punctuations, to change text in to upper case, remove new lines/extra space between texts or can count the characters in the text.

### E-Commerce Website

02/2024 - 05/2024 Ahmedabad

The project was built during the internship at PaperBird Tech.

- This project was built for the purpose of studying the database of d'jango and learn the designing of website.
